

SKY BERRIES ACADEMY

28TH - 29TH of September 2018

PARTNER

SKYBERRIES ACADEMY

September 2018 will mark the first summer school organized by the **vertical farm institute** (vfi). In collaboration with partnering organizations this means an important step in the dissemination of information regarding urban food production. This edition of the SKYBERRIES Academy is the ideal entry into the topic of the vertical farm.

CONTENT

The program is created in a manner that the participants get fully acquainted with the integrated aspects of the vertical farm. The vfi takes on the main responsibility for shaping the content of the program, however there is a possibility for the partnering organizations to provide the vfi with additional input. This year's topics will concern :: food :: technology :: business :: society.

TARGET AUDIENCE

Participants will be mostly representatives from the partnering organizations. Additionally there will be place for others to join if they purchase a ticket.

DATE AND LOCATION

This SKYBERRIES Academy will take place on Friday the 28th and Saturday the 29th of September 2018. The program during these two days will be organized in a manner for participants to arrive on time on Friday and leave on time on Saturday. The exact location is still to be determined, it will be in Austria in relative close proximity to Vienna.

PRICE

€ 3500,-

In order to make the SKYBERRIES Academy a meaningful experience there is a need for financial compensation from the partnering organizations. For the committed organization this price includes:: promotion of the company in all online communication channels of the vfi, onsite display of promotional material, four representatives can take part free of charge, the possibility to send an expert as a speaker.

The intention of the vfi is to form strong collaborations that are mutual beneficial. This means that the mentioned price is guiding and not adamant. Feel free to reach out with any questions and remarks.
